

Build Your People

Training and communication to every employee, every day

Communication Empowers Employees

Training is the #1 way companies communicate with employees to build a happy, loyal and productive workforce. But most organizations don't have a simple, yet powerful engagement platform for communication and training.

Tyfoom provides a quick way to connect all workers with leaders every day to improve organizational culture, productivity and employee engagement.

Engage and Train Employees

Tyfoom employs non-disruptive, science-based techniques and gamification to facilitate the transfer of knowledge and increase accountability.

Tyfoom makes it easy for organizations to deliver highly-engaging, video-based communication and training that builds retention and connection. We have a 70% daily engagement rate. Bite-sized videos are 83% easier to recall compared to text.
